. What a Nice Game!

. Thank you for making the exit game button work.. Pay 2 win af. Oh boy, this was the first Counter-Strike I played, and I can say its a decent game. It takes 1.6 and adds a few new maps, and a few new weapons, and other minor additionsThe real reason to play this game is because of the extra modes. Zombie Chase, Giant Zombie, etc. are modes only available in this Counter-Strike, and all provide good fun.

Pretty great game, the only thing is missing that you can't trade your guns with your friends.. I like this game because it is a mixture of original CS1.6 and some Zombie modes. This game is not only for PvP player so also people with not so many aim can play this in the PvE modes.

. 10/10 This game is not bad. There is pro's and con's.. 1 is suitable for old crapy pc/laptop like me. Well thats the pro's. Con's? Pay to win. Yes its free to play but in order to win, you must pay.. Lots of cash to get supreme weapons. Plus the so called hack shield if a trash. Lots of hackers still manage to breach in the game. Abusers, cancerous player that love to bug, using vulgar words, blockers. Plus the support team either sleeping or just ignoring once sending a ticket. It tooks few months..!! Send some blocker video and hacking video, yet same guy appear everyday like nothing happen. If problem occurs, like now always diconnect from the game for every 10 - 15mins, nothing happen.. The Moderator aint fix that. Some like morale boost tooks 8 months.. Till now not yet fixed! Is this how you guys treat your customer? We spend money for this game to make this game alive, yet the service really sucks AF. If asking me why I still play this game? well just look the pro's (crappy laptop). HQ suppose to be elite player, sitting in ducts in zombie hero and also skywalk.. 100% pay to win games.. Thats all.. Rating? 1/10.. ( 1/2 over 10). Fun Game to Spend Time With Friends :P
